MY RESEARCH TOOLS

When I identify what I need and use the appropriate tool, I get better at finding what I'm looking for!

I need:

Books or films about my topic	Newspaper articles on past and current events that made the news	Magazine articles written for a general readership <small>*In French only</small>	Academic journal articles that report on scientific studies or expert research	Encyclopedia articles containing basic or general information on my topic	Digital library collections accessible online to look for basic or general information on my topic	e-books, audiobooks, periodicals and journals

Reference tools							
Videos available online							
Specialized tools	For chemistry, physics and the periodic table of the elements 	To access required information quickly or perform a complete analysis of a patient's drug profile 		To identify pharmaceutical products using image banks
